EDUCATIONAL FAIR WAS A BIG SUCCESS

HELD FRIDAY AND SATURDAY OF LAST WEEK.

BIG ATTENDANCE BOTH DAYS

Bolsa Only Outside School With An Exhibit; Large Number Enjoyed All the Lectures; Cafeteria Lunch Popular.

The Community Educational Fair, the sixth one of the community events given by the Chamber of Commerce, was held Friday and Saturday of last week, and was a highly successful affair, although the high wind prevailing Friday no doubt kept many from attending the Grammar school.

The exercises opened at 9 o'clock in the Grammar school with specials in several of the rooms. Visitors passed through the different rooms and the hallway and inspected the exhibits made by the pupils and those by the Holly Sugar Corporation, University of Southern California, Pacific Oilcloth & Linoleum Co., Bolsa and Seal Beach schools, war food substitutes, comparison of food rations in the United States and other nations at war, Neostyle machine, paper baler and model lunches for pupils.

The work of the Junior Red Cross attracted considerable attention, exhibits being shown in the separate rooms and combined with the exhibit in the sewing room.

The morning athletics consisted of a basketball game between the girls of Huntington Beach and Bolsa schools, and the home girls were the winners.

There was a big assembly meeting beginning at 11 o'clock, being witnessed by a capacity audience.

One of the surprises of the day was the large number who patronized the lunch stand and cafeteria. Most of the supplies were donated, and the net receipts are reported at about $70.00.

In the afternoon the entertainment consisted of wand drills, calisthenic marching, Y. M. C. A. exercises and regular marching. The Grammar school boys demonstrated their superiority at the national sport by defeating an all-star team from the nine outside schools. There was a big attendance at the ball game, and probably 400 enjoyed the program in the auditorium, while others were inspecting the exhibits, making a total attendance of probably close to 1000 persons.

County Superintendent of Schools R. P. Mitchell announced the winners in the contest for the most appropriate thrift poster.

The feotures of the program were a vocal solo by Miss Marie Frenger of Wintersburg and the folk drill by girls of the upper grades.

The speaker of the afternoon was Prof. Tully C. Knowles of the U. S. C., who delivered an instructive address on "Education After the War."

In the evening a large audience enjoyed listening to a wonderfully patriotic address by Prof. Silas Evans, president of Occidental College.

Prof. Evans said we are now at the bloody angle of the world's greatest comedy. He preferred comedy to tragedy, he said, as anything that ended gloriously was a comedy. In his estimation the world's greatest danger does not depend upon the result of the present gigantic offensive or whether the German army reaches Paris, but upon the danger of a premature peace being agreed to by the Allies. He predicted that in a short time the Teutons will begin a big drive for peace.

Prof. Evans also said he was in favor of shipping every grain of wheat to our Allies, as we could get along very nicely on substitutes.

The program at the High school included athletic contests and exhibits in the class-rooms.

At 2 o'clock there was an illustrated lecture at the Princess theatre by Prof. F. P. Brackett of Pomona college on "German Occupation of Belgium," followed by J. E. Sprunger, state secretary of the Y. M. C. A., who talked on the subject of "The Y. M. C. A. In War, and War Prisons."

Mr. Sprunger has had a great experience in the prison camps of Germany, and some of his statements were a great relief to parents who have sons in the service who may be among the prisoners in Germany before the conflict is ended. Mr. Sprunger's statements carried the impression that the prison camps in Germany compare favorably with those in other nations at war.

Both addresses were highly appreciated.

The speakers on all occasions were introduced by V. B. Brown, principal of the High school, chairman of the committee in charge of the Fair. Other members of the committee were Harold H. Campbell, principal of the Grammar school; H. O. Ensign, principal of the Ocean View school; Judge Copeland and Trustee Joseph Vavra.

CITY TRUSTEES MET TUESDAY NIGHT.

NO CHANGE IN THE APPOINTIVE OFFICERS.

There was a meeting of the city trustees Tuesday night, being an adjourned meeting from Monday night. Very little business was transacted, asfde from filling the various appointive offices, which were as follows: City Manager, Geo. W. Spencer; City Attorney, Alex P. Nelson; City Marshal, John Tinsley; City Recorder, Judge C. W. Warner; City Forester, F. M. Brunton; Health Officer, Dr. G. A. Shank. As there is very little building being done at this time, it was decided to make no appointments for building and plumbing inspector, and let the city manager issue any permits that may be desired.

While the building question was being discussed, President French stated that there was need of a building ordinance before there was much more building being done, as under the present ordinance there was no way to compel builders to secure permits before starting construction work, and no method of inspection was provided for buildings outside of the fire limits, and on motion of Trustee Vavra, seconded by Trustee Chapin, the city attorney was directed to draw a building ordinance.

When the matter of appointments was mentioned, City Manager Spencer stated that the ordinance creating the office of city manager vested him with the authority of making all appointments, subject to the confirmation of the board. There was a surprised look upon the faces of some of the trustees who had voted for the passage of the ordinance. Trustee Vavra said that he had no recollection of such a prerogative having been given to the city manager, and asked City Clerk Chas. R. Nutt to get the ordinance and read it, and it was found that the appointive power had not been delegated to the city manager.

President French said he believed that the salary of the health officer should be reduced to $5 per month, the same as that of a trustee, as there was really nothing for the health officer to do, and it should be largely an honorary position. At any rate, he said, there was nothing for the health officer to do as compared with that of trustees, who receive but $5 per month. This suggestion was vigorously opposed by Trustees Vavra, Chapin and Drew, and mildly so by Trustee Decker, who said that the health officer must have had a lot of work to do during the recent smallpox scare. The present salary of the health officer is $15 per month.

Trustee Vavra suggested that there should be an executive session for considering such matters, and on motion of Trustee Chapin, seconded by Trustee Drew, a secret session was ordered. The vote for the reappointment of the city manager was four to one, President French being the opposing member.

The next meeting of the board will be Monday evening, May 6th.

LARGE NUMBER OF VISITORS HERE SUNDAY.

BATH HOUSE DID A GOOD BUSINESS.

The weather Sunday was of the typical Southern California variety—just warm enough to remind those in the interior that the Pacific Ocean was but a few miles away; consequently there was a large number of visitors along the beach all day.

It was the first Sunday that the bath house has been open this season, and Lawrence Davis, who is in charge this year, was kept busy most of the time accommodating those who felt like diving in the plunge or surf.

There was a band concert, beginning at four o'clock, by the Huntington Beach Municipal Band, under the direction of Chas. H. Endicott, which was enjoyed.

There was considerable fishing from the pier, with fair luck for some of the anglers. The band will not play next Sunday.

CHAMBER OF COM. MEETING POSTPONED

WILL BE HELD NEXT FRIDAY EVENING.

COURTESY TO WOMAN'S CLUB

Everybody Wants To Go To Entertainment This Evening; Matters of Iinterest Up For Next Week.

There will be no meeting of the Chamber of Commerce tonight, as President French announces that it has been postponed in order to allow everybody an opportunity to attend the big entertainment to be given by the Woman's Club in the Grammar school auditorium this (Friday) evening at 8 o'clock.

The regular monthly meeting will be held Friday evvening of next week, and there will probably be several matters of interest to the community discussed at that time, among them the one of providing for accommodations so that men working in the ship yards in San Pedro and Long Beach may reside in Huntington Beach.

RESULT OF ATHLETIC CONTEST AT SCHOOL FAIR.

PUPILS FROM FIVE SCHOOLS PARTICIPATED.

(F. E. Skinner.)

Huntington Beach girls defeated Ocean View girls' team in basketball Friday morning—13 to 3.

Huntington Beach boys defeated combined district team in baseball Friday afternoon—27 to zero. Bennie Page shut out his opponents. Heavy hitting by home boys. Opponents used four pitchers during game without results.

District Track Meet.

The annual district track meet was held at the High school Saturday morning. Seal Beach, Newport, Westminster and Ocean View combined in an effort to defeat Huntington Beach Central school. Silk ribbons were given to winners in every event. Coach Sprotte acted as starter, while H. O. Ensign and F. E. Skinner managed the opposing squads.

Bennie Page of Central went out of the meet with a sprained ligament. Capt. Masters managed to gather 31¼ points, being the star. Kerr starred for Westminster, running a fine half-mile race. Elliott starred for Ocean View, and Zintgraff for Seal Beach. Knight was only entry from Newport.

Results—Huntington Beach Central, 63 points; Ocean View, 8; Westminster, 8; Newport, 2; Seal Beach, 1.

Baseball.

Central school lost a close 6-to-3 game from the Horace Mann Long Beach team last Wednesday. The game was played on the Huntington Beach diamond, and was viewed by a large crowd of rooters. The visitors played a fine game, and the local nine will play them again at Seal Beach next Wednesday. Page and Wilson proved to be a good battery. One bad inning let in four runs and lost the game.

THE VALENTINE CONSERVATORY OF MUSIC.

FIRST RECITAL PUPILS' SERIES WEDNESDAY.

Mrs. Valentine Cunningham, president of the Valentine Conservatory of Music and Arts, announces the first of a series of pupils' recitals will be given at Conservatory Hall, Sixteenth and Olive, next Wednesdoy afternoon, May 1st, at 3:30, with Mildred Josephine Moore, the talented little pianist of Huntington Beach, in charge, assisted by Mrs. Ethel Insley Bliss, vocalist, of Pasadena, a relative of Mildred.

INJURED BY BLAST.

W. T. Vandruff has received word that A. J. Hurst, who resides on a farm near Fresno, was seriously injured while blasting holes for fig trees. Both of his eyes were badly injured, but the report stated that there was some hope that the sight of one of them might not be totally destroyed. Mr. and Mrs. Hurst formerly resided in Huntington Beach, and Mr. Hurst was employed by the Huntington Beach Co.

SOUTH COAST IMPROVEMENT ASSOCIATION.

COAST ROAD WAS TOPIC OF DISCUSSION.

There was a meeting of the South Coast Improvement Association at Balboa, Friday evening of last week, and the chief topic of discussion was the coast road between this city and Newport Beach.

There are $30,000 of county funds now available for the construction of this highway, upon which Laguna Beach has the call. The meeting was for the purpose of endeavoring to induce the representatives of Laguna to allow all of this amount to be used at this time for the building of the section between the cities of Huntington Beachton Beach and Newport Beach, but the best they would agree to do was to allow an equal division.

The Huntington Beach representatives decided to wait until the tax levy this fall, when enough can be secured to construct a creditable road on this end, and let the $30,000 be used for that portion from Balboa Palisades to Laguna Beach.

Those from Huntington Beach were T. B. Talbert, chairman of the board of supervisors; E. E. French, chairman of the board of city trustees; Trustees Joseph Vavra, Richard Drew, R. H. Chapin and H. C. Decker; City Manager Geo. W. Spencer, H. V. Anderson.

GOING TO JOIN THE COLORS.

Fred Gallienne, the well-known and popular clerk in Obarr's drug store, left today for Fullerton, where he will be among those to entrain for Camp Lewis, Tacoma, Wash. R. L. Reeves, employed at the Holly sugar faltory, will leave next Wednesday.

Mr. Gallienne had made three efforts to enlist, but was rejected on each occasion for physical reasons, but was accepted by the examiner at Fullerton.

GEORGE W. MOORE WILL RUN FOR SUPERVISOR.

ENDORSED AT MEETING HELD SATURDAY NIGHT.

The following resolution, with signatures, is furnished by Chas. C. Johnson, who acted as secretary of the meeting held in Smeltzer, Saturday evening, to endorse George W. Moore as a candidate for supervisor in the second supervisorial district:

We, the undersigned citizens and taxpayers, having the utmost faith in the ability and integrity of Mr. Geo. W. Moore, hereby endorse him for the position of Supervisor of the Second Supervisorial District of Orange county, and most earnestly solicit the support of all citizens of this district in his behalf.

Sterling Price, R. L. Obarr, Edward Chaffee, Jack Jentges, W. E. Gerhart, R. L. Draper, Chas. C. Johnson, G. A. Shank, A. W. Griffith, O. C. Hare, C. H. Warner, J. O. Pyle, D. W. Huston, J. D. Price, G. S. Warner, Joseph Vavra, M. L. Koppin, P. J. Wells, R. F. Hazard.

FURNITURE STOCK WILL SOON BE MOVED.

CARL OLSON WILL OCCUPY HIS OWN BUILDING.

Carl Olson will probably complete moving his big stock of furniture next week from the present location in the Beggs building to the new block which he erected a few months ago, on the opposite side of Main street, and occupied since completion by Wyatt's store.

The move gives Mr. Olson a permanent home for his store, and makes him an especially attractive place of business, being a credit to a city the size of Huntington Beach. The moving has been progressing since the room was vacated by Mr. Wyatt.

DO YOUR SHOPPING EARLY IF POSSIBLE.

THIS WILL ALLOW MERCHANTS TO CLOSE ON TIME.

If everybody would do their shopping as early as possible it would be an easy matter for merchants to close their respective places of business at the regular time.

The closing time has been set at an early hour in order to allow all an opportunity to grow a war garden, if they desire to do so; but if customers wait until the last minute to make purchases, someone must be late.

BIG AUDIENCE GREETS CLARA HOSLER COOMBS

UNDER AUSPICES OF JUNIOR RED CROSS.

"THE FOUR-FOOTED SOLDIERS"

Red Star Auxiliary Will Be Organized For the Care of Animals; Mrs. T. B. Talbert In Charge of Work.

There was a big audience present Monday evening in the Grammar school auditorium to greet Mrs. Clara Hosler Coombs and Captain David Fallon, an Australian patriot.

The talk by Mrs. Coombs was the most instructive ever heard in Huntington Beach on the subject of "The Four-Legged Soldiers."

Views were shown of dogs and horses on the battlefields of France, and Mrs. Coombs told in a highly interesting manner the great part that these dumb animals are playing in the great conflict. She told a marvelous story of how the dogs are trained to carry messages across No-Man's Land, and relief to isolated men.

By cross-breeding the Airedale and the sheep dogs, Mrs. Coombs stated, resulted in a dog with a double scent—that is, both from the air and the ground, inheriting the air scent from his Airedale father and the ground from that of his sheep dog mother. The sense of hearing of the dog is so much more acute than that of man they can detect the approach of an enemy 150 feet farther away than can their masters, and the dogs are trained to utter a growl, deep down in the throat, which warns the soldiers of the danger at hand, yet the alarm is not loud enough to be heard by the savage Hun.

According to Mrs. Coombs' statement, dogs are camouflaged by tying small branches of trees or grass to them, and under this protection they crawl across the shell-swept regions of No-Man's Land, undetected by the enemy, both on land and in the air.

Rat terriers are used in the trenches to keep the rats from gnawing the soldiers while sleeping, which has often been the case. Mrs. Coombs says horses and mules are almost as essential as men in winning the war.

She organized, while here, branches of the Red Star, which is for the purpose of caring for the dumb animals in the same manner that the Red Cross cares for the soldiers. She announced that Mrs. T. B. Talbert had charge of the work in Huntington Beach, and Miss Elise Armitage of the Junior work in the High school. The dues are the same as the Red Cross—$1 or more per annum.

Mrs. Coombs has a decidedly military bearing, and has an interesting manner of imparting information to her auditors.

Captain Fallon talked for about 30 minutes. He predicted that the war would end when every German was killed, and that the Allies were killing them at a rapid rate.

TEN YEARS AGO

The Following Items Appeared In the Huntington Beach News of April 24, 1908.

The great Atlantic fleet passed Huntington Beach on its scheduled voyage from San Diego to San Pedro, at 2 o'clock last Saturday afternoon. It is estimated that at least 5,000 visitors from neighboring cities viewed the grand spectacle. W. T. Newland and S. W. Price were the most active men of the day in looking after the comfort and pleasure of the crowd. Lumber for making seats was loaned by A. W. Griffith, manager of the San Pedro Lumber Co.

"Diamonds and Hearts" was rendered at the High school last Friday evening in a very creditable fanner. Miss Vera Pryor, as the heroine, displayed marked dramatic talent, and her rendition of the role was a distinct success. Boyden Hall, as the "hayseed" uncle of the young doctor, made a big hit with the audience, and evidenced unusual ability as a character comedian. Ward Blodget played the physician in so realistic a manner that many in the audience feared he might present a big doctor bill when the performance was over. Miss Ethel Crane as "Sis," the maiden sister of the "hayseed," is deserving of great praise, and in the scene portraying the simple country life of this brother and sister, the evening hymn and the good night shake of the hand, after they had lighted their tallow candles, was a very touching incident. Miss Cecile Armitage, the heroine's stepmother, played her difficult part well, lacking as she did, on account of the character she played, the sympathy of the audience, and sharing with her son (Leo Livernash), the villain of the play, the odium always attaching to that part. Of the minor parts, the girl friends of the heroine were well acted by Miss Beatrice McKenney and Miss Jessie Newland. The sheriff, Arthur Worthy, and lawyer, Urban Plavan, did their work very cleverly. The humor of the play was furnished chiefly by "Sammy," the colored boy, played by Lew Blodget, and he did so well that children in the front row were in a roar most of the time.

The following committees were appointed at the Woman's Club, Monday afternoon: Civic Improvements, Mesdames Agnes Cole, J. E. Clippinger and Louise Corbett; Literary, Mesdames Mary Manske, Marie Osterhaus and Maude Flaws; Household Economics, Mesdames Ruth Hall Lindgren, Ella B. Walker and A. L. Reed; Social, Mesdames Esther Sholly, Bertha Horne and M. D. Rosenberger; Entertainment, Mesdames A. E. Whiteside, Marian B. Ramsey and Orlma M. Lake.

The local lodge of Odd Fellows will celebrate the 89th anniversary of their order Sunday evening at their hall, and the churches will unite with them on that occasion. The Huntington Beach orchestra will furnish music, and Mrs. Geo. O. Franklin will render a vocal solo, "Just a Little Orphan In An Odd Fellow's Home." Rev. Clough will preach the sermon.

The Orange County Bankers' Association was organized in Santa Ana last week. S. L. Blodget, cashier of the First National Bank, was the Huntington Beach representation.

Mr. and Mrs. S. E. Talbert were at San Pedro, Wednesday.

Mr. and Mrs. A. W. Brown were at Long Beach, Thursday, and visited the battleship New Jersey.

Mr. and Mrs. A. M. Brown of Colton visited with Mr. and Mrs. Geo. O. Franklin, Sunday.

Mr. and Mrs. L. E. VanWinkle returned Tuesday from Hemet, where they inspected their ranches.

Mr. and Mrs. W. E. Harrell and children visited with Mr. and Mrs. J. A. Harrell, Sunday. Mr. Harrell has been installing a light and power plant at Bishop, and says the snow was so deep that the work was some times stopped.

CYRIAL LAKE PASSES AWAY.

Cyrial Lake, 10-year-old son of Mr. and Mrs. Albert E. Lake, passed away Saturday morning at 11 o'clock, and funeral services were held in the Methodist church Monday afternoon at 2:30, with Rev. R. I. McKee in charge, the interment being in the Huntington Beach cemetery.

It is seldom that such a gorgeous profusion of floral offerings have been seen as were displayed at the services, indicating the high esteem in

We'll Fix It

If your watch or clock is out of the running, bring it to us. We'll fix it and give it back to you in nearly as good a condition as when it was new.

Watch and clock repairing is one of our hobbies. We are really as particular about having you satisfied with a repair job as we are having you satisfied with the goods you buy from us.

To get the greatest amount of satisfaction out of either a watch or clock, it must be inspected and oiled every year or two—once a year is better.

You wouldn't think of buying a new automobile and then trying to run it without oil; neither should you think of letting your watch or clock run year in and year out without a drop of oil. Better let us look after it for you.

The Earthquake.

The earthquake of Sunday afternoon was the most severe ever felt in this vicinity. With the first shock people ran out of the houses, and some persons were made seasick. Although everything shook and rattled for a while, no damage to amount to anything was reported. W. Dean Johnston and family motored to the Modjeska ranch, and were on their way home, going over the hills to El Toro when the quake came. They were on a grade road, and the auto went from side to side until they were sure it would roll over the side of the grade. Aside from being badly frightened no damage was done.

ENROLLMENTS IN THE NAVAL RESERVE DESIRED.

Pursuant to the plans set forth by the Navy Department, Ensign Chas. A. Harris, recruiting officer for this district, with main recruiting station at Los Angeles, has been instructed to make every effort to obtain enrollments in the Naval Reserve Force, Class 4 (Coast Defense Reserve).

We dislike very much to admit that this district is behind in enlistments in the Navy, yet this is true. It is imperative that we take our place as a leader. We have the opportunity during this drive to remove this stigma from our district. We can enroll the men as fast as they apply, but we cannot force men to come in.

Enrollments are now open in the following branches of the Reserve Forces: Seamen, enginemen, coppersmiths, patternmakers, firemen, hospital apprentices, machinist mates, shipfitters, blacksmiths, electricians, (Radio and general), landsmen for electricians (Radio), boilermakers, moulders, watertenders, ships' cooks, musicians, mess attendants and bakers.

Service is for the duration of the war. Draft men may enlist prior to being called to fill the quota of the local board.

See your postmaster for further information, or write this office, Navy Recruiting Station, Los Angeles, Cal.

THE MINIMUM RETURNS PER ACRE for 18 per cent beets will be as follows on acreage producing from ten to twenty tons:

Yield Per Acre	Minimum Returns for 1918	Increase Per Acre Over Minimum Provided in Previous Contracts
10 tons	$ 90.00	$36.00

19 "	171.00	68.40
20 "	180.00	72.00

The increase is 66⅔%

Copious rains have put fields in ideal condition for preparing seed beds, and land reasonably suitable and properly farmed should yield a highly profitable beet crop.

WEEKLY GREETING.

Every man feels instinctively that all the beautiful sentiments in the world weigh less than a single lovely action.—Lowell.

KETTNER WILL BE RETURNED.

If the war continues, there is not the slightest doubt of Congressman William Kettner being re-elected next November, as he is in thorough accord with the President's war policy, and, while some of us did not support President Wilson at the late presidential encounter, we are all behind his vigorous war program; and there appears to be no reasonable excuse for any change in the Congressional representation from the Eleventh California district.

Mr. Kettner voted for the National prohibition amendment and thereby redeemed his past record on that important question, which removes one of the principal objections to his candidacy.

In 1916 the News did not support Mr. Kettner because there was a chance at that time to elect a Republican president and congress, and believed that the best interests of the country would be served by the election of Mr. Hughes and Mr. Harbison.

While the country is at war, loyal men should be retained in Congress, regardless of their political affiliations.

TALK ON PATRIOTISM
BY DR. S. G. HUFF.

The following was delivered by Dr. Huff recently at a patriotic entertainment given in the church at Wintersburg:

Mr. Chairman and Friends:

I say friends, and mean it, for if I have a personal enemy, either here or elsewhere, I don't know it. Hence, when I mention or think of the enemy, I am thinking of the rulers of Germany—the one greatest enemy of all mankind today, in their effort to rule the entire world.

I have been asked to talk to you, my friends and neighbors, on patriotism. I think I can illustrate the viewpoint of the necessity of patriotism of two of the colored population that had become very dear to each other in a sparsely populated and densely wooded, mountainous country of the sunny south. Rastus had braved the darkness of the night through the March winds, and had entered the cozy, comfortable kitchen where his sweetheart Miranda was the presiding genius. Each knew why he was there, and, Miranda being a true patriot, had given much thought as to what the answer should be when the all-important question was propounded. So, before giving her consent, she thought best to try out the patriotic courage of Rastus, and she answered him with this question: "Rastus, what would you do if you and I were alone in the dark woods of the mountains in the night, and you could hear a snake skulking through the brush, coming at us, and a wildcat screaming in the trees above us, and a lion roaring and coming at us a mile a minute?" Poor Rastus' courage failed him, and he answered: "There wouldn't be any Us." He lost his Miranda.

Patriotism is the all-important theme at this time; it is the subject in which every good citizen is intensely interested. Perhaps most of us have some leader in thought that is our ideal, both in thought and action. Now, as leaders do not agree in matters of action it becomes necessary to choose one supreme leader in action whose word shall be final in all matters of conduct, and all must give our hearty support and ask no questions, but put our shoulders to the wheel and do our bit; and, whatever effort it may require, push and continue to push, for that is the only way to get there. The war is on, and it is idle talk to say that we should not be in it. We are an important part of the world, and the world is in it. The Allies in self-defense are fighting for home and native land and all else that is dear to every human heart.

Every good citizen is now on the anxious seat, not knowing how the most ferocious battle of all battles—the battle of Picardy—shall end. But each of us must work, hope, and pray for the victory of the allied armies that are in the death struggle with the most powerful and the most debased enemy that the world has ever known. Their armies have already overrun Belgium and many of the smaller countries.

The death struggle is still on in France and Italy, where they have massed armies of unheard of numbers of men that have had years of drill in efficiency of brutality, and have learned their cruel lessons only too well, until now they pitch an innocent babe from the mother's breast on the bayonet with the same glee that a boy would pitch a ball on the playground. They have ravished the fairest of the innocent ones in every land that they have entered. To them virtue is unknown. Even in their home-land it is not respected by the leaders, and they rule over all without mercy and commit any crime. All they ask is the approval of the kaiser, and that is readily given, as he has no appreciation of virtue, and permits nothing to come between him and his ambition to rule the world. He has sent spies into every land—even our own home state is infested with them. It would almost appear that he has his Satanic Majesty flagged in the art of cunning and corruption of governments. We have but to look at the anarchy of Russia, where he has made the Bolsheviki his co-workers; so that it is but child's play for his armies to march almost unmolested through their land and possess it, although he had made a treaty with them quite to the contrary. But to him "treaties are but scraps of paper."

Yet there are those among us that, like the Bolsheviki say stop fighting and let us have peace. Do you want the kind of peace that Russia has? If so, talk peace and stop supporting all the war activities, and you will have a peace like unto that of deluded Russia.

ASSOCIATED CHAMBERS OF COMMERCE MEET.

BANQUET AT HUNTINGTON INN WEDNESDAY.

The regular monthly meeting of the Associated Chambers of Commerce of Orange county was held at the Huntington Inn, Wednesday at 7:30 p. m., with J. A. Armitage of Sunset Beach presiding.

The address of welcome was delivered by E. E. French, president of the Board of Trustees, saying that he was pleased to welcome such a representation to the only beach in the county. He said that Newport Beach could no longer be classed as a beach resort, as it would soon be an industrial center. Mr. French said he would ask the Chambers to endorse the proposition to electrify the Southern Pacific line from Huntington Beach to Anaheim, which would be a convenience for the residents of interior cities to reach the beach.

The response was by Walter Eden of Santa Ana.

Lew H. Wallace of Newport Beach, chairman of the harbor committee, reported that the Capital Issues Committee in San Francisco had exceeded its authority in regard to advising that the bond election for the improvement of the harbor be postponed, and that A. J. Crookshank and James McFadden, very wealthy men, who had always been opposed to the development of the harbor, were responsible for the unfavorable action. He read a letter from the committee admitting that it had no authority to pass on any bonding matter until after the election.

Robert F. Hazzard of Westminster said there was no one in favor of the bonds in his district. Mr. Wallace replied by telling of his experience at Alamitos, where the sentiment had changed when people were made acquainted with the facts, which would be done before election day.

The feature of the meeting was the address of C. H. Burnett, manager of real estate, titles and resorts for the Pacific Electric Railway Co., who told of the great part the railroads are playing in the war. He said that the Government had constructed a harbor in France, built 400 miles of sidings, which would accommodate 8000 freight cars, and had also built 1100 miles of double-track railroad for transporting troops and supplies. Mr. Burnett closed his talk with a dramatic denunciation of the German Kaiser and his savage methods of conducting warfare.

The next meeting will be in Yorba Linda, and the June meeting in Seal Beach.

The menu and the promptness with which it was served reflects credit upon Mr. and Mrs. Samuel Clapp, who have charge of the Inn. Miss Irene Engle, Miss Edith Harris of Huntington Beach and Miss Elise Armitage and Miss Loretta Armitage of Sunset Beach were the waitresses.

The following attended from Huntington Beach: Judge Louis A. Copeland, president First National Bank; F. H. McElfresh, dry goods and furnishings; H. V. Anderson, cashier of Huntington Beach Co.; R. L. Obarr, Obarr's drug store; Chester C. Knight, manager E. K. Wood Lumber Co.; Judge C. W. Warner, justice of peace; D. W. Huston, bowling alleys; E. E. French, president of Board of Trustees; Trustee R. H. Chapin, dentist; Dr. G. A. Shank, physician; Alex P. Nelson, city attorney; Harold H. Campbell, principal Grammar school; Father Woodcutter, priest in charge of St. Mary's church, and Jas. J. Conrad.

EARTHQUAKE SHOCK SUNDAY AFTERNOON.

The most severe earthquake shock probably ever experienced in this section of the state occurred Sunday afternoon about 3:35. There was no damage to property whatever in Huntington Beach, and the only visible effect of the jar in this district is a crack in the boulevard just west of Talbert.

The sensation produced by the phenomena is a very peculiar one, and almost every person had a different experience, but the most amusing one reported is that of F. H. McElfresh. Mr. and Mrs. McElfresh were walking out on the pier and were about the middle of the structure, and Mr. McElfresh states that his feet suddenly crossed and he felt dizzy, and the thought came to him that he had been siezed with a stroke of apoplexy and the end was near. He reached for the railing and braced himself, and thought that he was going to collapse, when Mrs. McElfresh said: "There is something wrong here; I don't feel well." He looked up and saw those farther out on the pier running for the shore, and then realized that he was not the only one affected. Someone said "earthquake," and Mr. and Mrs. McElfresh turned and ran for the shore—and he states that no one passed them while in transit.

A. Shrosbree and Daniel Sheehan were seated on a bench against the pumphouse on the outer tee of the pier, and when the house began moving Mr. Shrosbree looked around and saw the door of the house shaking, and said: "We had better get away from here; there's going to be an explosion inside," and they grabbed their fishing tackle and rushed for the shore, but were winded before going half way.

The quake was of 30 to 40 seconds duration and most houses shook considerably. However, so far as known, not a brick was disturbed nor a glass broken.

On Tuesday, Mrs. Rigdon has charge of the work-room. Wednesday and Friday, Mrs. McCreery. An improvement in attendance was noticed last week.

JOSEPHINE ENDICOTT,
Chairman.

W. C. T. U. FINANCE COMMITTEE IS GRATEFUL.

Mrs. C. W. Warner and Mrs. S. E. Hearn, finance committee for the Woman's Christian Temperance Union of Huntington Beach, are very grateful for the support they have been accorded in the drive for the district quota of the $30,000 to be raised in Southern California for war relief work.

The allotment by the state for the Huntington Beach district was $400 and by the county $100, and of this amount the sum of $403.50 has been subscribed. Fifty per cent of this money will go to the state; 10 per cent to the county, and 40 per cent to the Huntington Beach union.

This district includes Seal Beach, Wintersburg and vicinity, and the committee is grateful for the aid coming from the country, and for the courtesy shown those who conducted the canvass.

SELLS MULES AND BUYS A BIG TRUCK.

H. T. Dunning, manager of the San Pedro Lumber Co., has sold the mules that have been used for delivery purposes and purchased a big lumber truck with which the business will be cared for in the future. Mr. Dunning states that it is cheaper to operate a truck than to feed the mules. The San Pedro Lumber Co. is one of the big concerns in Southern California, and has had a branch yard in this city since the townsite was placed on the map.

"THE MARRIAGE SPECULATION" SATURDAY

"The Fighting Trail," 12th Episode, Sunday.

MARGUERITE CLARK HERE WEDNESDAY NIGHT.

Saturday Night.

"The Marriage Speculation" will be the attraction Saturday night.

Cliday has worked twenty years in a pickle factory and saved $10,000, which he desires to invest so as to insure him a competence for the remainder of his life. He has an acquaintance with Clara Wilton, who works in a confectionery store—an attractive, ambitious girl, and the sweetheart of a plodding grocery clerk.

Cliday tells Clara he will invest his $10,000 in her education and introduction into society—she, in return to win and wed a rich man who will see that he (Cliday) wants for nothing the remainder of his life. Clara accepts, although it wrenches her heart to give up Billie Perkins, her sweetheart.

In two years, Clara develops into a beautiful and polished young woman who has made the best of her opportunities, but gives little thought to her fulfillment of the compact. She and Cliday are at a fashionable resort when he tells her there is enough left of his $10,000 to pay bills for one month more.

Clara still loves Billy and loathes the men who seek her hand, but she places her duty to Cliday above her love, and finally accepts an Italian count. The wedding day arrives and also Billy, who experienced an "awakening" with the departure of Clara, and now is partner in the store and able to pay Cliday the money he has expended on Clara.

Billy unmasks the count as a waiter-adventurer, and disguising himself to resemble him, takes his place in the bridal party. Clara fails to recognize him until the ceremony is well under way. Cliday not knowing Billy has any money, generously offers to release Clara of any obligation and everything turns out happily.

Second show starts at 9:15.

Sunday Night, "Fighting Trail."

Her hands bound fast to the pommel of her saddle and guarded by two outlaws who in fiendish glee cheer as a horse dashes away across the desert, dragging after him her husband, desperately wounded and bound to the animal's tail.

This is the heart-rending plight of Nan Gwyn, bride of a young American mining engineer who persists in working his mine in defiance of the outlaws.

The story of the remarkable girl and their fight against the outlaws of the Sierras is told in "The Fighting Trail," the amazzing serial of adventure and romance, the twelfth episode of which will be the attraction in the Princess theatre on Sunday night.

Miss Carol Holloway, the fearless little star in "The Fighting Trail," Greater Vitagraph's premier serial of adventure and the limitless outdoors, is as handy with a repeating rifle as she is in the saddle, and Joe Ryan, Vitagraph's favorite screen bad man and acknowledged one of the best riders in the Southwest, "allowed" she "was the smartest little woman with a horse he had ever run up with." However that may be, Miss Holloway's markmanship is given its severest test in the twelfth episode when, seated in the saddle, she cuts with a bullet a rope attached to the tail of a horse which is dashing across the desert and dragging her (screen) husband to his death.

Then see May Robson in "A Night Out," a comedy par excellence in five reels.

"Laugh and the world laughs with you, weep and you weep alone," with apologies to the fat man's soliloquy.

Second show starts at 9:15.

Wednesday Night.

The mention of the name of George Washington probably recalls more vividly to mind the cherry tree incident than the fact that he was the savior of his country, so thoroughly has that story been instilled into the minds of the youth of the country. Therefore the announcement that Marguerite Clark is starred by the Famous Players in this Paramount Picture, "Miss George Washington," conjures up one of two pictures—a girl who cannot tell a lie, or a girl who cannot tell the truth. In this case the producers have chosen to parody the name, and the story deals with one of the most accomplished little fibbers and mischief makers that one could imagine. Before the story closes, everybody is deceiving everybody else and there is scarcely a reputation that is not torn to shreds. But it is all in good fun, and it all turns out for the best. "Miss George Washington" is one of the most delightful comedies in which fascinating Marguerite Clark has ever appeared.

LETTER FROM LIBERTY BOY NOW IN FRANCE.

The following letter was written by J. S. Cameron, a nephew of Alexander Cameron and Mrs. Geo. A. McCurdy of Huntington Beach. Mr. Cameron enlisted at New Rockford, N. D., and this was the first letter received by his mother after his arrival in France:

France, Jan. 14th, 1918.

Dear Mother:

A memo. just arrived announcing that our regimental postoffice was in working order; hence a brief note so that you may know that I am still on earth.

I am sorry that I am unable, due to strict censorship, to tell you much of interest, excepting what I may observe outside of military circles. That is mighty little, because I am on this job from 6 a. m. to 11 p. m., and if there were more hours in the day I would be on duty.

I am temporarily in command of the company, and will probably be for about a month. That makes the duties particularly arduous, because the work is largely executive and the means and facilities limited.

This, mother, is the great adventure of all the ages. I consider it a great honor to be permitted to take part in it, especially as an officer, with all the responsibility attached.

I am unable to tell you when we landed or by what means we got here. That will probably become known to you in time through the papers—probably not. However, we are in France, gradually working toward the mission upon which we were sent. As to how long we will be here is mighty hard to tell, but it is evident that the European countries are getting sick of the affair, and this year may see peace. We see german prisoners now and then and it is very evident that they are glad to be prisoners, and sick of the war.

I always had a bent for travel and adventure, and, outside of the misery of the war situation, I enjoy the travel. It goes without saying that everything in France is very strange to us. The dress, the habits of the people, the primitive ways of the peasant are all very interesting. The French people are certainly brave and patriotic. They are bright, active, friendly people, very much, in fact, like our own American people, excepting in language, with this difference: Their love of gaiety cannot be suppressed—war or no war. It is true that practically all forms of amusement have been given up in France, but the disposition is there. You know I always love to study people, and this is a feast for me. They are all here. It seems that the whole world has assembled in one spot. You can see them all—Americans, European, Asiatic, Australian, African, working side by side, all soldiering to the last inch. A civilian is a curiosity here.

We are in a fairly comfortable camp in a very beautiful part of the country—hills and valleys and beautiful little streams. The climate is mild but damp; always wet under foot. I can't stop now to tell you the details of what I see.

JAMES T. TALBERT BURIED WEDNESDAY.

FATHER OF T. B. TALBERT OF THIS CITY.

James T. Talbert passed away early Monday morning at the family residence, 1211 Appleton street, Long Beach, and funeral services were held in Long Beach, Wednesday afternoon, and the interment was in Huntington Beach cemetery.

T. B. Talbert of this city, chairman of the board of supervisors, and Samuel E. Talbert of Talbert are sons of the deceased, and Mrs. J. B. Irwin of Huntington Beach is a daughter. Other surviving children are: Henry E. Talbert of Porterville, Mrs. Mary Piper of Deshler, Ohio, and Mrs. Levina Miller of Chestnut, Illinois.

Mr. Talbert was almost 79 years of age, having been born in Greenville, Muhelenburg county, Kentucky, May 24, 1839. During his boyhood he carried the mail from Greenville to Madisonville, Kentucky, via Hartford, and from Greenville to Morgantown, via Mud river. The family moved to Maccoupin, Illinois, May 31, 1858, and Mr. Talbert enlisted in Co. D, 73rd Regiment U. S. Inft. Volunteers, August 7, 1862, being honorably discharged in June, 1865. He took part in the battles of Perryville, Murphysburo, Chattanooga, Lookout Mountain, Missionary Ridge, Chickamauga, Peach Tree Creek, Franklin, Nashville, and the siege of Atlanta. Was united in marriage in Illinois in 1861 to Miss Rachel Weddle, who passed away in 1884.

He is survived by Mrs. N. E. Talbert, whom he married about 10 years ago. Moved to California in 1891 and located at Long Beach, and was a resident of Talbert in 1898 and 1899, and circulated the petition for the establishment of the post office at Talbert, which was located in the general store then conducted by his son, T. B. Talbert.

His demise was due to the result of an injury sustained from falling from his bicycle.

Have I Tested Your Battery this Month?

Twice a month is not too often to get inside facts—to find out whether enough water has been added—whether the charge has been kept up to the proper point—whether avoidable losses have occurred.

A test takes only a few minutes.

Just a little precaution *now* may save you later from the inconvenience of a motor that refuses to turn over—from lights that are dim when they should be brilliant—from actual *damage* to your battery.

When you come in be sure to remind us that you want to look at the Still Better Willard Battery which is the only battery with the "Bone Dry" principle that is your absolute assurance of getting a battery as new as the day it left the factory.

CURING FISH.

(Santa Ana Register)

All along the coasts of the United States, on the Pacific as well as the Atlantic, thousands of individuals besides the many firms resort to the curing of many varieties of fish during the summer season for use in the winter. Among the species thus prepared are the sea trout, channel bass, croakers, perch, Spanish mackerel, striped bass, black bass, corbina or surf, smelt, and herring. There is no uniform method of pickling, the fish being dressed, salted and packed according to the fancies and convenience of the various individuals, as the product rarely goes on the market.

In general, the fish are dressed by removing the head and viscera, and the larger ones split down the back so they will lie flat when salted.

They must first be washed thoroughly, either in fresh or salted water, to remove all trace of blood before placed in the brine for pickling; and this may be more satisfactorily done by allowing them to stand over night in a weak solution of salted water, then drain and rinse in clean water before being placed in the pack. The proper way to salt the fish for keeping in pickle is to sprinkle a layer of salt over the bottom of the jar or tub in which they are to be kept, then a layer of fish and a handful of salt, and so on until the receptacle is nearly full, when more salt should be used, and on the top a good layer of salt covering all the fish. A good weight should be placed on the top to hold the fish down tight and press them together. Do not put any water on them, as they will make their own brine; and should the brine appear to be bloody after two weeks, remove the brine by turning it off and not disturb the pack; boil it thoroughly, skimming off all the skum, let it get thoroughly cold and pour back on the fish, covering them well with more fresh salt, replacing the weight on top. Should the brine evaporate so it does not cover the fish at all times, a little cold water that has been boiled may be added to keep the fish at all times under the brine.

It is best to use rock salt, either ground or coarse, but other salt may be used with herring that are prepared for smoking. The following information relative to curing and smoking herring may be of advantage to some who may desire to cure them that way: In the first place, the herring need not be dressed, but may be taken just as caught, and after thoroughly washing, place them in a salt brine for ten to fifteen hours, according to the size of the fish (although some think that scaling them is preferable); then hang them to dry or thoroughly drain before placing in the smokehouse.

They should be smoked from twelve to fifteen hours (and if large fish up to twenty hours) in such a condition that the heat of the fire cannot overheat them or cause them to burn—just so they can thoroughly pickle with smoke—and may be left in the smokehouse several days to cure, provided the house is not wanted for more fish; but do not keep up the fire.

The fish should not be closer to the fire than six feet at any time; and if a barrel is used in smoking them, the fire may be placed to one side in the ground, with a piece of stovepipe or box trough to convey the smoke to the bottom of the barrel. The fish are placed on small half-inch rods or large wires by pushing through the mouth and out one gill so they will touch each other, and these rods placed about three inches apart with the fish all hanging one way. If the fish are allowed to thoroughly dry before being placed to smoke they will stay on the rods much better and not liable to fall off if overheated. After smoking they may be placed in boxes for future use, but should be kept dry and cool.

Many other species may be pickled in salt, such as barracuda, halibut, yellow tail, salmon, and other trout.

I am preparing this for publication by request, and trust it may be of use to many who may desire to cure some fish. Always keep your fish out of the sun, as they will soon start to spoil in the sunlight, and salt will not redeem them.

AMERICAN AND ENGLISH INCOME TAXES.

In comparison with the tax levied in England on incomes our own income taxes are moderate.

In England the tax on incomes of $1,000 is 4½ per cent, in America nothing.

In England the tax on incomes of $1,500 is 6¾ per cent; in America nothing for married men or heads of families, and 2 per cent on $500 for an unmarried man.

In England the tax on an income of $2,000 is 7⅞ per cent; in America nothing for a married man or head of a family, and 2 per cent on $1000 for unmarried men.

The English income tax rate also increases more rapidly with the growth of the income than ours, a $3,000 income being taxed 14 per cent, $5,000 16 per cent, $10,000 20 per cent, and $15,000 25 per cent, while our corresponding taxes for married men are respectively two-thirds of 1 per cent, 1½ per cent, 3½ per cent and 5 per cent, and only slightly more for the unmarried, due to the smaller amount exempted, the rate being the same.
